About Us

Our company, which took its place in the agricultural sector with the production of plastic packaging and the supply of fertilizer raw materials in a total area of 9.200 m² with a closed area of 4500 m² in the Organized Industrial Zone of Antalya city in Turkey since 2006, has become a leading company by making great contributions to the sector.

PERGE PLASTİK KİMYA TARIM İNŞAAT GIDA TURİZM SANAYİ VE TİCARET LİMİTED ŞİRKETİ is a developer, producer and marketer of soil and plant nutrition technology solutions due to the increasing demand for qualified, reliable, customer-oriented, innovative and well-experienced producers globally.

It contributes to Turkish and World agriculture with its wide product portfolio such as organic, inorganic, micro and macro elements, growth promoters, amino acids, NPK series product groups available in different forms such as gel, liquid and powder.

We serve all different products from planting to harvest, with root growth regulator, plant self-defense enhancer, flower and fruit holder, single and multiple deficiency correctors, fruit growers, colorants and ripeners, soil and water conditioners.

The Future is for Everyone.
